

Mission

The Joint Project Management Office for Nuclear, Biological, and Chemical Contamination Avoidance is responsible for the development, production, testing, and fielding of Nuclear, Biological and Chemical (NBC) detection, obscuration, and reconnaissance systems. The JPM ensures that system developments focus on customer's needs within cost, schedule, and performance parameters.

Vision

To be recognized as the provider of the best quality NBC defense products for the Joint Force and the Nation to protect our servicemen and citizens around the world.

CD-ROM

The enclosed CD-ROM contains a multimedia version of the NBC battlefield. It has been developed to autostart on your computer. Windows 2000 and a display resolution of 1024 x 768 are recommended.
